

A CRITTER'S DAY OUT

**A DRAWING
ACTIVITY BOOK
FOR CHILDREN**

Here's how you build a critter.

Now its your turn!

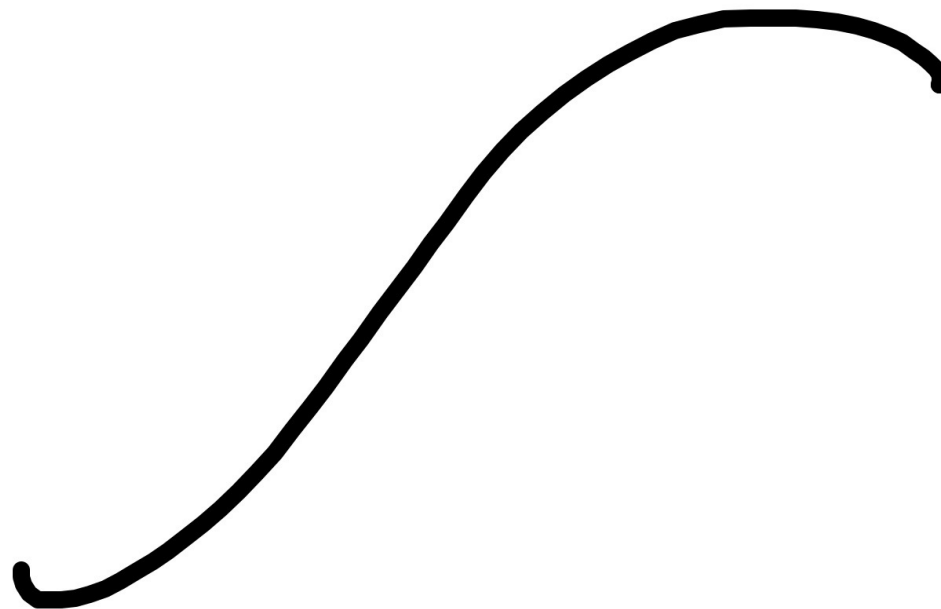

date.....

Could we play with your favourite toy?
Could you draw it for me?

date.....

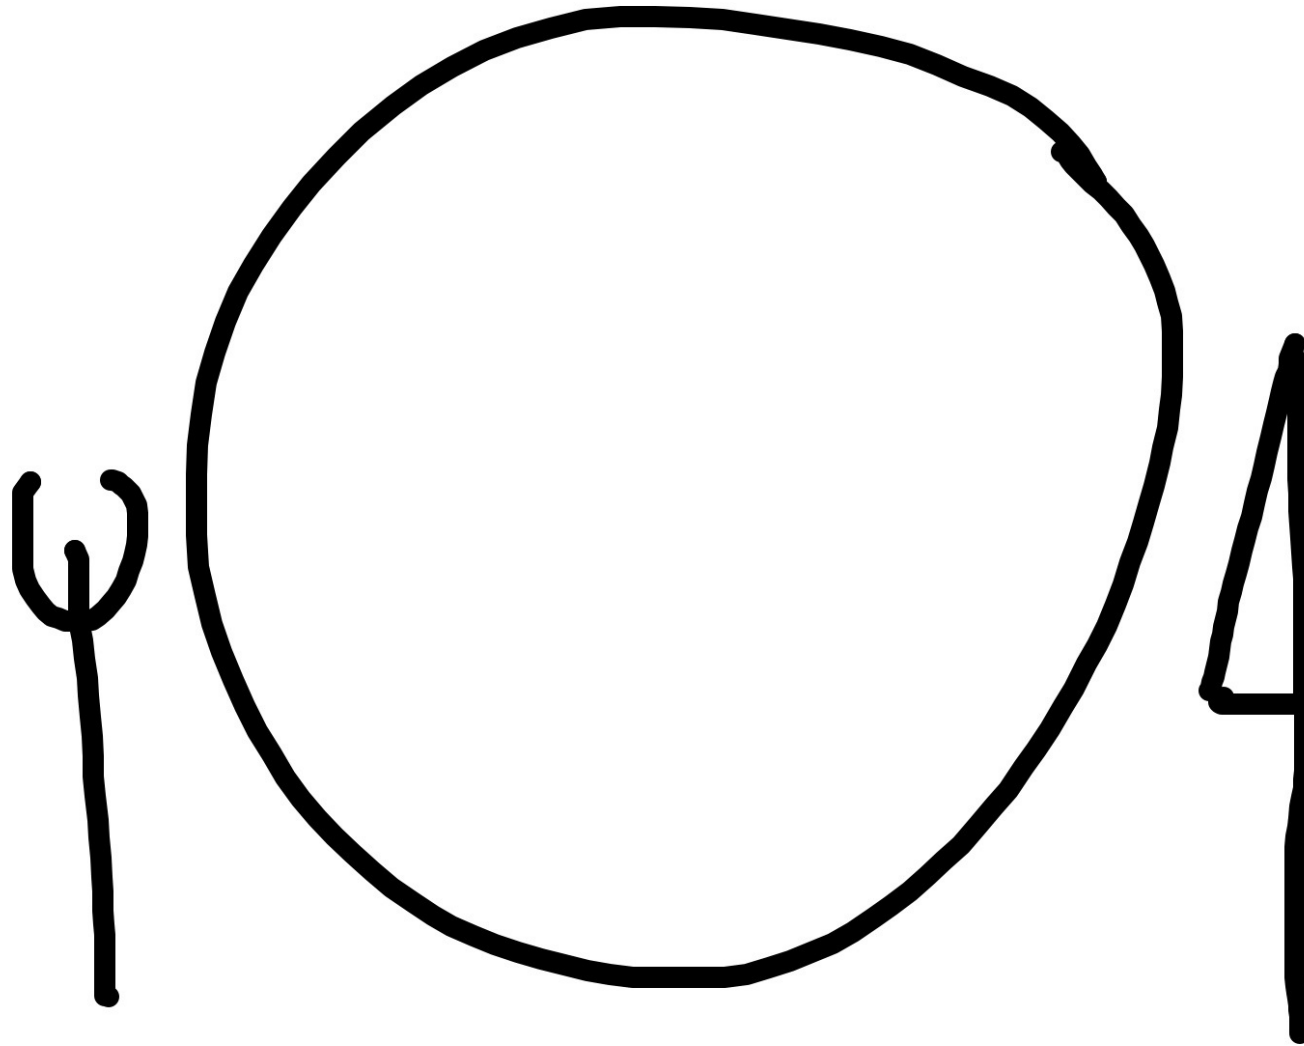

Weeeeeee!

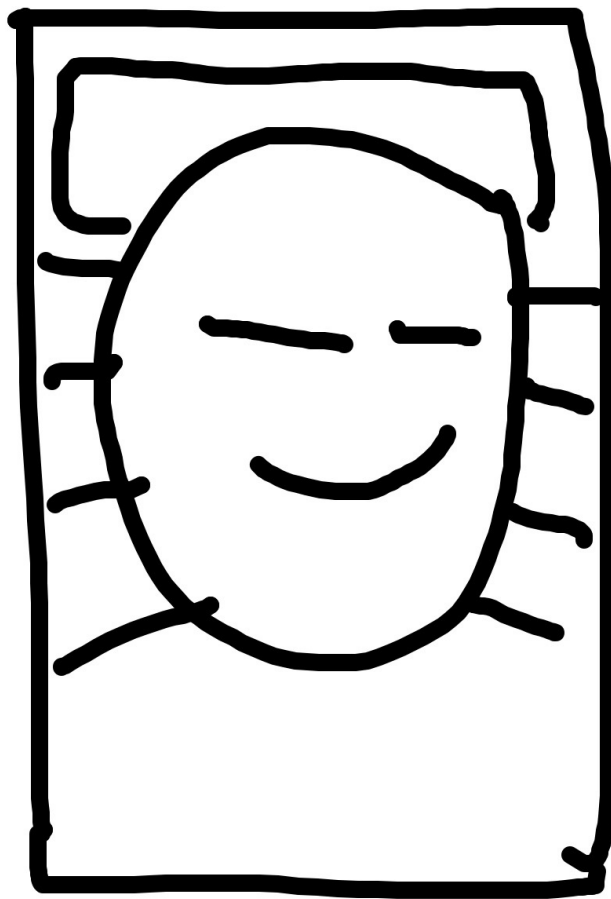

Let's go to the park. Can you
put me on the slide please?

date.....

Dinner time! Can you fill my plate with your favourite food?

date.....

Time for bed. I'm cold.
Can you put my blanket on?
Sweet dreams!

date.....

Congratulations on purchasing this Squiggle Kids drawing activity book!

Each Squiggle Kids drawing activity book is created with a developmental focus.

The drawing activities in this book are tailored to early drawers. Young children begin with horizontal, diagonal, vertical and circular scribbles. Typically between the ages of 2 and 3, circular markings emerge with more consistency.

The circular critter at the beginning of this book could become the base for a spider, a spider's web, a beetle, the sun, a pizza or a person (drawn by early drawers like a tadpole, with head and legs).

More information on drawing and children, tips for working on this book with your child and additional drawing activity books are available from www.memobooks.com.au/squigglekids/ (and neighbouring pages). The QR code below will also take you there.

We hope you have fun sharing this book with your child!
